Amelia McCullough

CLIENT SERVICE COORDINATOR

Amelia joined Vantage in 2021 as Executive Assistant to Partner David Sowinski. Five months in, she moved into her current role as Client Service Coordinator for a top client and now manages a cadre of the Vantage clientele.

Amelia holds two Bachelor of Science degrees in Anthropology and Animal Science, which have taken her around the world. This has also cultivated a unique skill set that has proven valuable across a few different careers. She has directed a laboratory in Belize, learned how to read Mayan hieroglyphs, and even transported archaeological remains across international lines. She has also office managed for a company that sold yeast to commercial breweries. Able to run tasting events and industry talks, the brewing industry is still her favorite customer of all time.

Outside of the office, Amelia loves traveling, honing her cooking techniques, and appreciating her husband’s brewing and cocktail-making skills. In cold weather, her favorite activities are board gaming and visiting museums.
